process by providing the following documentation to the manager. Completed skills check list Peer review check list from three peers (Available on the website)

1. The nurse's main preceptor
2. A regular charge nurse that works with the nurse
3. Any additional registered nurse from the unit

The manager will assess that the

### **NURSING CLINICAL LADDER GUIDELINES**

Rather than assigning software developers to train your team, we send our clinical staff on-site to train, peer-to-peer. This approach, utilizing RNs, LPNs, and MDs, better equips staff for their primary responsibility of caring for patients while using TechCare ® to be more efficient. Ultimately, users become more comfortable with the system faster and understand its correct usage as it

Registered nurses (RNs) are found in all kinds of health care settings, not just hospitals or long-term care facilities. In addition to assessing patients' conditions, coordinating their care, and administering tests and treatments, RNs play an essential role in patient education and support. Licensure is required in all states.

Nursing credentials and certifications are the various credentials and certifications that a person must have to practice nursing legally. Nurses' postnominal letters (abbreviations listed after the name) reflect their credentials—that is, their achievements in nursing education, licensure, certification, and fellowship. The letters usually appear in the following order:
