### **Project and programme evaluations | European Commission**

The European Commission (EC), the executive branch of the European Union (EU), has developed a common methodology for designing, implementing, and evaluating the tens of thousands of projects it annually finances, a methodology known as project cycle management (PCM), one it uses to manage projects in research and technology, economic and social development, and transportation, among others.

### **Project Evaluation Planning: The General Guidelines**

Evaluation Systematic and objective assessment of on-going or completed interventions (actions/policies), their design, implementation and results according to the following criteria: relevance, effectiveness, efficiency, sustainability, impact, coherence and EU added-value.

### **HANDBOOK FOR EU PROJECT DESIGN AND**

Project and programme evaluations. The European Commission commissions evaluations of individual EU-funded projects and programmes during and after their implementation. Evaluations at the project or programme level are used to improve on-going operations and draw lessons from experience. Identifying successes as well as problems can help to design and manage better projects in the future.
