The Existence of God Richard Swinburne
Why believe that there is a God at all? My answer is that to suppose that there is a God explains why there is a physical universe at all; why there are the scientific laws there are; why animals and then human beings have evolved; why humans have the opportunity to mould their

Existence of God - Wikipedia

The basic flow Swinburne's thesis is that the argument for simplicity points to a God that created us as embodied humanly free agents. God in his perfect goodness gave us free-will which includes the choice of whether to believe in him or not. The evidence for God's existence is deliberately ambiguous otherwise we would not have free-will.

An Analysis of Richard Swinburne's The Existence of God

God's existence thus provides the best explanation of moral obligations. If moral obligations are identical with divine commands (or perhaps if they are grounded in or caused to exist by divine commands) an argument for God's existence from such obligations can easily be constructed: ... Richard Swinburne (2004, 218), for example, argues ...

God is internally coherent. The Existence of God is concerned with whether the claim is true; it is concerned to assess the weight of arguments from experience for and against this claim, and to reach a conclusion about whether on balance the arguments indicate that there is a God or that there is not. The present book assumes that the

The Existence of God Richard Swinburne

According to the author, one of the most compelling cases for the existence of God is the “fine-tuning argument,” which speaks to the intricacy of the universe. He explained that there are 122 variables that must line up perfectly for the universe to exist. If even one variable is slightly off, the universe could not support life.
