Microsoft Patterns & Practices have several nice application architecture pocket-guides about RIA & Silverlight and Web applications. RIA-Silverlight pocket guide:

What is web architecture? - Ryte, Inc.

Origin of web architecture . The world wide web is a concept that was realized in the 1990s so that people and machines could communicate with each other

within a certain space. It is used to exchange, distribute, and share information in a network. At that time, the web consisted predominantly of static websites based on HTML, in other words, hypertexts that can be retrieved by a browser. Dynamic websites and distributed web services were added later.
